- Last 10 Number Redial

*Caller ID displays a caller's name, number, time and date of the call between the first and second ring. This feature requires the user to subscribe to a Caller Identification service, available through their local telephone service provider. Caller ID may not be available in all areas and a fee may be associated with this service. To ensure optimal utilization of this feature, both the user's telephone and the telephone of the calling party must be in areas where Caller ID services are available, and the local telephone service provider must be using compatible equipment as well. Use of all features listed under "Caller ID/Call Waiting Features" or any features referencing Caller ID/Call Waiting require a subscription(s) to services provided through the local telephone service provider.

**Use of Voicemail Waiting feature requires a subscription to voicemail services available through your local telephone service provider.

***The actual recording time depends on individual message characteristics.

****Visit www.telephones.att.com for a complete list of cell phones that have been tested and found compatible with the AT&T TL86109 and TL96271.

*****Music-on-Hold functionality should only be used in conjunction with music specifically licensed for on-hold use. Licensed on-hold music is available from many third party suppliers. AT&T disclaims any liability arising from the failure to obtain such a license.

******When on a conference call, under certain configurations and/or situations, the far-end parties may not be able to hear one another clearly even when the volume is adjusted to its highest level.

When you choose an AT&T product that has earned the ENERGY STAR®, you can trust that it meets strict energy efficiency guidelines set by the US Environmental Protection Agency (EPA) and the Department of Energy (DOE). ENERGY STAR and the ENERGY STAR mark are registered U.S. marks.
